GERTRUDE

Tall strong grower with heavy broad foliage. The color is pure white, but the lower petals are flushed with pale yellow, while violet veinings carry down into the throat adding to the attractiveness and beauty of the flower. The florets are large, of good form and texture, well placed on a long spike having six to nine blooms open at one time.

"GERTRUDE" was awarded THREE FIRST PRIZES at the A. G. S. E. Exhibition at Hartford, 1927.

MISS JOY

One of the most beautiful *Primulimus Grandiflora* Type ever introduced. The color is La France pink shading deeper at edges. The two central segments are almost wholly Barta yellow, or soft cream with a flush of pink at the tips.

The florets are $4\frac{1}{2}$ to 5 inches in diameter, evenly and perfectly spaced on a graceful stem having four to five blooms open at one time. "Miss Joy" is a rapid propagator and will bloom from small bulbs. Planted out side it blooms in 65 days. Forced under glass it is as early as Maiden's Blush.

MISS JOY was awarded FIRST at Boston, 1927. FIRST at Hartford, 1927. FIRST at Boston, 1928.
